O Mistério de Colombo - Poemas ao Nobre Navegador Português

This book reveals the story of a mysterious character in the World of the Discoveries. It is a poetry and philosophical book about this character. I intend to bring to the Portuguese speaking reader the genesis of this man and the historical discipline inextricably linked to the history of the Portuguese Discoveries and to the Portuguese King, D. John II. This book consists of a collection of unpublished poems and other selected theme of the forthcoming three volumes of The Hidden Truth of the Discovery of America poems to Dom Cristóvão Colon, to the Portuguese Discoveries and to the Portuguese King D. John II. It gives the reader a first contact with the mystery of the person of Dom Cristóvão Colon in defense of his Portugueseness thesis. The Book is composed by three chapters. Poetry, Essay and History combined to form a single thought: the hidden truth about the discovery of America. Xpo FERENS, the Wills of Christ FERENS, a cause of the portuguese discoveries and the treaties established between the Portuguese and the Spanish Crowns, the Orders and the Mysteries were all issues approached in this book. The reader will have the possibility to feel who was this extraordinary character.
