## The Adventures of Mada-Leninha - The disappearance of Bubu

This book introduces Little-Madalena, Muel and Bubu. They are innocent children playing, easygoing, until they realize one of them is missing. Where is his whereabouts? Did someone kidnap him? Why? Through cartoons illustrations and narratives you follow the path of these children and their parents. Through this tale the Prevention Madalena's shockingly shows that awful events happen in Brazil, much more often than we think. Let's be all eyes. Children and adults have daily gone missing, to be then found abroad elsewhere with broken spirit, and mentally and physically abused. Let's not allow a dream to become a nightmare: join force along with Prevention Madalena's, and spread the word. Let's make this tale of those cartoons characters, Little-Madalena, Muel and Bubu, available to every Brazilian youngster. It is above all a major warning for the sake of their future.
